- [Browser information.

How We May Collect Other Information

We and our third-party service providers may collect Other Information in a variety of ways, including:

- [**Through server log files:** Your “IP Address” is a number that is automatically assigned to the device that you are using by your Internet Service Provider (ISP). An IP Address is identified and logged automatically in our server log files whenever a user uses the Platform, along with the time of the use and the pages or areas visited within the Platform. Collecting IP Addresses is standard practice on the Internet and is done automatically by many websites and applications. We and our third-party service providers use IP Addresses for purposes such as helping to calculate usage levels of the Platform, diagnose server problems and administer the Platform.
- [**Through your browser or device:** Certain information is collected automatically through your device, such as your operating system name and version, device manufacturer, device identity and model, language, and the name and version of the software application you are using.
- [**Device location information:** We may collect the physical location of your device by, for example, using satellite, cell phone tower, your IP Address or WiFi signals. We may use your device’s physical location to provide you with personalized location-based services and content. In some instances, you may be permitted to allow or deny such uses and/or sharing of your device’s location, but if you choose to deny such uses and/or sharing, we and/or our marketing partners may not be able to provide you with the applicable personalized services and content.
- [**Using cookies:** Cookies allow a server to transfer data to a device for recordkeeping and other purposes. We and our third-party service providers use cookies and other technologies to, among other things, better serve you with more tailored information and facilitate your ongoing access to and use of the Platform, as well as for online tracking purposes. If you do not want information collected through the use of cookies, there is a simple procedure in most devices that allows you to decline the use of cookies. To learn more about cookies, please visit <http://www.allaboutcookies.org/>. If you choose to decline cookies, some or all of the features, functionality and promotions available through the Platform may not be available to you.
- [**Using pixel tags and other similar technologies:** Pixel tags (also known as web beacons and clear GIFs) and other similar technologies may be used in connection with some pages and areas of the Platform and HTML-formatted e-mail messages to, among other things, track the actions of users of the Platform and e-mail recipients, measure the success of our marketing campaigns and compile statistics about usage and response rates of the Platform.

[**From you:** We may collect demographic information such as, for example, your age, occupation and family status, as well as other information when you voluntarily provide such information to us. We may also collect such information about you from third parties. Unless combined with Personal Information, this information does not personally identify you or any other user of the Platform.

[**By aggregating information:** Aggregated Personal Information does not personally identify you or any other user of the Platform. For example, we may aggregate Personal Information to calculate the percentage of our users who have attended a particular event.

How We May Use and Disclose Other Information

Because Other Information does not personally identify you, we may use and disclose Other Information for any purpose. In some instances, we may combine Other Information with Personal Information (such as combining your zip code with your name). If we combine any Other Information with Personal Information, the combined information will be treated by us as Personal Information as long as it is so combined.

We cannot, however, be ultimately responsible for the data security measures of any third parties

If you have reason to believe that your interaction with us is no longer secure (for example, if you feel that the security of any account you might have with us has been compromised), please immediately notify us of the problem by contacting us in accordance with the “*CONTACTING US*” section below.

HOW YOU CAN ACCESS YOUR PERSONAL INFORMATION

If you would like to review or update your Personal Information that has been previously provided to us, you may do so by logging into your account within the Platform, or, for certain Personal Information that is not reviewable through the Platform, you may contact us in accordance with the “*CONTACTING US*” section below.
